

COMPACT SPIRAL FREEZER

The solution for baked goods, meat, poultry, vegetables, potato products and ready meals when freezing or cooling in a medium-capacity range and in a limited space

- Modular design installs in days and can be moved with ease.
- Dimensions: 17.7' L X 9.2" W X 10.2' H Belt Width: 18"
- Production Rates: 500 lb./hr. - 1500 lb./hr. depending on product utilized.
- Above and below the belt, mounted spray-bars with assorted nozzles ensure efficient cleaning of the entire belt as it moves through its cycle. The wet cleaning system can be expanded into a complete belt cleaning system by adding a blow dryer and a pump station with a detergent dispenser.

We service the industrial sector by providing cooling and freezing equipment for food processing facilities. Our goal is to provide the most hygienic, energy efficient and reliable equipment available in the world
